

ABOUT US

Redman Homes is one of the oldest and most respected homebuilders in America. Founded in 1937, Redman pioneered factory home construction and continues to lead advances in quality control, design and home value today. Through experience and innovation we've harnessed production line efficiency and, paired with our high-quality craftsmanship, created a process that delivers homes that meet our superior standards.

A place to call your own

Beyond just building you a house, we're committed to providing you and your family with a home to make memories in that will last a lifetime. Somewhere you can feel secure. A place you can call your own. A home that fits your lifestyle and has your own personal touch. Whether you're an active young family constantly on the go or empty nesters ready to simplify, just relax – we have a home that's right for you.

More choice, more freedom

Our vast selection of floor plans, color choices and options give you the freedom to express your personal style and fit your home around your life. Using our online Kitchen Designer, it's easy to create the kitchen of your dreams.

Building the best

We build each and every home to meet or exceed a strict national or state building code, and we set even higher standards for ourselves. Focusing on the things you don't see as well as the things you do, we monitor and inspect our homes at every stage of construction. From the plumbing system to the electrical wiring, from the kitchen cabinets to the closets in the bedrooms – every home we build undergoes rigorous quality inspections to ensure we're providing you with nothing but our best.

The quality you expect

To build the best, we use the best. To meet your expectations of quality - and ours - we use only the highest-quality building materials and trusted national brand names. From insulation and fixtures to flooring and appliances, we only buy components from suppliers who share our commitment to quality. By using the best, we're confident we can build you a home with the lasting value you'll appreciate for years to come. Your housing consultant can tell you more about the specific brands used in our homes.
